GREAT VALUE YOU CAN RELY ON.

Your work day is complex and places many different demands on the treatment center you choose. INTEGO gives you the perfect solution: Choose from two models that you can configure flexibly. Whether you select an INTEGO or INTEGO pro, a whip arm or a hanging hoses design – every option offers optimal performance at a fair price.

INTEGO

- Treatment center with a compact water unit for optimal use of space.
- EasyPad user interface for easy, intuitive operation.
- Compact assistant element with good freedom of movement.
- Controlled water quality with a self-contained fresh water supply bottle.
- Available as the TS model with hanging hoses or CS with whip arms.

INTEGO pro

- Integrated, comprehensive hygiene concept for optimal results.
- EasyTouch touchscreen and integrated foot control concept for easy, intuitive operation.
- Flexible assistant element suitable for two- or four-handed treatment.
- Numerous equipment options with a great value.
- Available as the TS model with hanging hoses or CS with whip arms.

pro

This icon on the following pages of the brochure indicates equipment that is available only with the **INTEGO pro**.

ERGONOMIC DESIGN YOU CAN RELY ON.

The treatment center is the heart of your practice. INTEGO perfectly combines appearance and functionality – so you can work comfortably under optimal conditions. In addition to their harmonious design, coordinated components and variety of color combinations, INTEGO treatment centers meet the strict criteria of our ergonomics concept. INTEGO fits the style of your practice – and your taste.

THE COLOR COMBINATIONS

THE ELEGANT WORLD

Classic, timeless combinations for an especially high-class look.

THE NATURAL WORLD

Soft, warm shades for a soothing treatment atmosphere.

THE VITAL WORLD

Vivid colors and bright tones for a modern, lively atmosphere.

AWARD-WINNING DESIGN

Sirona has earned prestigious design prizes for many of its products, including the red dot design award, the iF Product Design Award Gold, the iF communication design award, and the GOOD DESIGN Award.

Explore these color choices and design for yourself with the color configurator at: [SIRONA.COM/INTEGO](https://www.sirona.com/intego)

PERFECT RESULTS

Every treatment is a complex procedure. Our ergonomic products provide optimal access to the patient and smooth treatment workflows with a high level of patient comfort. INTEGO combines every dimension of ergonomics to make treatment easier for you. Achieve perfect results even at the end of a long working day – with your expertise and the support of our treatment center.

1 INTUITIVE SITTING	2 COMFORTABLE POSITIONING	3 OPTIMUM VISIBILITY	4 INTEGRATED WORKFLOW	PERFECT RESULTS
<p>More freedom of movement Thin backrest for ideal freedom of leg movement, flexible positioning of the foot control.</p> <p>Optimized instrument placement Perfect coordination of dentist and assistant elements, flexible positioning of the additional tray in the whip arm and hanging hoses model.</p> <p>Comfortable working stools HUGO, CARL, PAUL</p>	<p>Easy adjustment of the treatment center Flexible height adjustment, swiveling cuspidor.</p> <p>Best spine support Ergonomic, comfortable upholstery. Synchronized backrest and seat movements for optimal patient positioning. No headrest readjustment needed when the backrest is tilted.</p> <p>Greater patient comfort Gentle chair lift drive, armrests, Vario footrest.</p>	<p>Perfect illumination of the treatment area LEDview or LEDlight operating light, LED instrument light.</p> <p>Flexible headrests Flat or double articulating headrest.</p> <p>Perfect intraoral images SiroCam F or SiroCam AF, 22" HD monitor at the treatment center.</p>	<p>Intuitive operation EasyPad user interface or EasyTouch touchscreen.</p> <p>Integrated tabletop device functions Integrated torque control for endodontics, ApexLocator on the EasyTouch.</p> <p>Modern equipment Innovative instruments, modern patient communication system SIVISION, USB, SD card and Ethernet interface.</p>	<ul style="list-style-type: none"> ■ Clinically perfect ■ Esthetically perfect ■ Perfect for the success of your practice

INTUITIVE OPERATION

Difficult treatments require your full concentration. This is why INTEGO is intuitive – with two new, easy-to-understand user interfaces and innovative instruments for stress-free treatment. So you can concentrate on what's really important – your patient and a perfect treatment result.

EasyPad
Clear and intuitive user interface standard in both INTEGO and INTEGO pro.

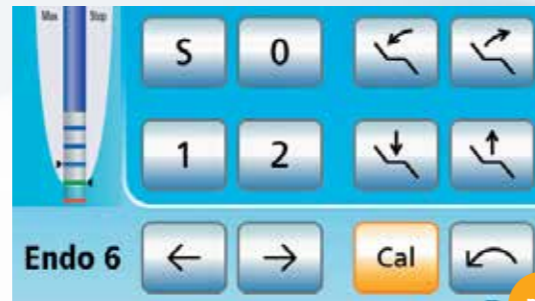

EasyTouch
This user interface can be integrated optionally in the INTEGO pro. More operating comfort thanks to intuitive touchscreen technology and more operating and display options.

BL ISO E micro-motor
Especially light, compact and with an ISO interface. Speed and torque are ideal for endodontic treatment.

Integrated torque control
The motor stops automatically when the set maximum torque is reached. This ensures greater safety and a perfect workflow for endodontic treatment.

ApexLocator
An ApexLocator can also be integrated into the EasyTouch to allow permanent control of the working depth during endodontic treatment.

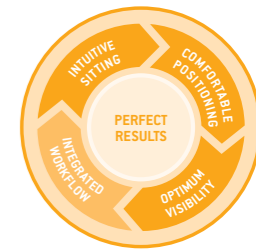

SPRAYVIT E
Optimal visibility with LED light.

SIROSONIC L SCALER
Handpiece and tips can be sterilized; controlled, straight oscillation. With electronic power and water control.

SIROCAM F OR AF
Easy-to-install plug & play cameras for detailed intraoral images. The SIROCAM AF with autofocus is especially easy to operate.

FLEXIBLE INTO THE FUTURE

In a good practice, customized settings add to your comfort. This is why you can configure the INTEGO exactly the way you need for optimal support of your treatment workflow. But flexibility means even more to us – and you can prepare INTEGO with technical options and interfaces so you are ready for future applications.

MANY MODELS

CHOICE OF TWO HEADRESTS

The flat headrest can be adjusted quickly and flexibly. Optionally, you can select a double articulating headrest that is easier to position and allows you optimal visibility even in difficult-to-see areas.

Flat headrest

Double articulating headrest

TWO OPERATING LIGHT OPTIONS – ALWAYS OPTIMAL ILLUMINATION

Two choices of LED lights for optimal illumination of the operating field. They can be positioned flexibly and operated hygienically using a no-touch sensor.

LEDlight

LEDview

ASSISTANT ELEMENT: COMFORT OR COMPACT

Both assistant elements are very space-saving and ensure maximum freedom of movement. With the Comfort model, you can work comfortably even without an assistant.

Comfort assistant element

Compact assistant element

Even more variety.
See page 22 for more configuration options to adapt the INTEGO optimally to your needs.

FUTURE-PROOF DESIGN

Integrated USB interface

INTERFACES: FLEXIBLE INTO THE FUTURE

A network interface in the patient chair and a USB port in the dentist or assistant element allow you to integrate new functions and network your practice – troubleshooting by your service technician is also much easier.

SIVISION 22" AC monitor

SIVISION 22" AC monitor

With this monitor, you can explain intraoral and X-ray images, software and planning views, videos and PowerPoint presentations to your patient directly at the treatment center.

IMPRESSIVE PATIENT COMFORT

Your patients will also appreciate this comfort: The INTEGO patient chair has an ergonomic design and, together with the headrest, ensures that your patients are especially comfortable. The chair lowers far enough for even shorter patients to can get in and out easily. And there is no doubt – patients who are comfortable feel more secure and remain loyal to your practice.

DOUBLE ARTICULATING HEADREST
Quickly adjustable to various treatment situations and patients with different statures.

PREMIUM UPHOLSTERY
The high-quality upholstery ensures comfort even during long treatments.

SYNCHRONIZED BACKREST AND SEAT MOVEMENTS FOR OPTIMAL PATIENT POSITIONING
The tilting of the backrest matches the movement of the patient's spine to prevent stretching and compression effects.

ARMRESTS
Your patients can rest their arms comfortably. The left armrest is used for support when getting in and out; the right one is moved out of the way.

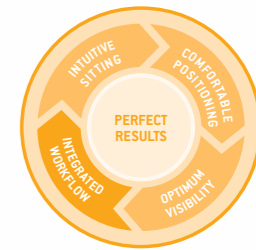

LIFTING SYSTEM
The unique chair lift drive gently moves patients into the proper position.

VARIO FOOTREST
The Vario footrest that comes with the Premium upholstery can be easily extended to provide even very tall patients with ergonomic positioning.

SAFE HYGIENE

Dentists all over the world have the highest demands for the safety of their patients and practice team. The INTEGO hygiene concept is designed so you can comply quickly and easily with all hygiene regulations. The assistant element and water unit designs make hygiene procedures even easier and less time consuming. All of this guarantees perfect infection control – for you, your patients, and your team.

INTEGO

The compact water unit and assistant element can be adapted to many different demands and requirements by freely selectable suction systems and hygiene options.

Fresh water bottle
For controlled water quality. Can also be filled with DENTOSEPT solution for permanent disinfection and manual sanitization.

Automatic suction hose cleaning
Cleaning adaptor for automatic purging of saliva ejector and spray aspirator.

Smooth surfaces
The largely gap-free design of the surfaces ensures maximum infection control in the shortest time possible.

INTEGO pro

The comfort water unit and assistant element are based on a comprehensive hygiene concept. You achieve the highest hygiene standards quickly and easily.

Integrated disinfection system
Permanent disinfection of all water lines with DENTOSEPT. Automatic sanitizing function for regular intensive disinfection. Can also be used with self-contained water supply.

Integrated cleaning adapters
For automatic purging of instrument hoses (AutoPurge) and sanitization of the water lines.

Chemical suction hose cleaning
Cleaning agent container for chemical purging of the suction lines. The concentration of cleaning agents can be adjusted individually.

QUALITY YOU CAN RELY ON.

Designed and produced in Germany. Using precisely defined processes that ensure greatest reliability.

We don't just want to satisfy our customers, we want to impress them. This is why quality, performance, and service are key for us. Sirona treatment units combine high quality with real innovations that perceptibly enhance treatment comfort and workflow.

INTEGO OFFERS HIGH ADDED VALUE AND TOP QUALITY – IN EVERY RESPECT

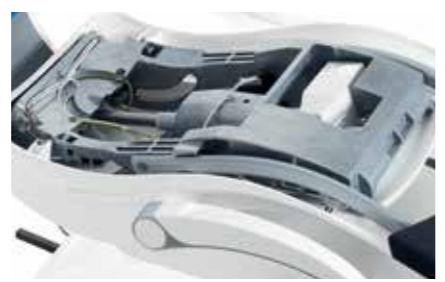

Reliability and durability

Precise, elaborate quality tests and robust materials make INTEGO a reliable treatment center with an above-average service life.

High quality

INTEGO immediately shows our attention to detail. The materials used – robust, shapeable plastics, solid steel and aluminum components on the inside, high-quality glass and upholstery – meet the high quality demands of a premium product.

High standards

Sirona is a technology leader with more than 130 years of innovation history and sets high quality standards. Some 290 engineers and scientists in Research & Development not only pay close attention to quality; they also drive the innovation process.

Future-proof design

At the Sirona innovation center, future trends are anticipated and products are prepared to be equipped for the technology demands of the future.

INDIVIDUAL CONFIGURATION

You can configure your INTEGO treatment center to fit your needs and meet your own desired great value.

ALWAYS AT THE FOREFRONT OF INNOVATION!

As global innovation leader for dental equipment, we continuously invest in research and thus in the future of modern dentistry. By networking digital technologies with integrated solutions and optimizing the treatment workflow, we can create improved treatment results, more comfort and safety for the patient as well as time and cost savings in everyday work. The combination of constant innovative power and globally growing sales and service structures makes Sirona the global market leader trusted by thousands of practices and labs around the world. **Enjoy every day. With Sirona.**

CAD/CAM systems

From pioneer to new standard. For almost 30 years we have been developing digital dentistry and creating new possibilities for the future practice and lab.

Imaging systems

Best image quality with the lowest dose. More than 100 years of developing x-rays for the dental practice make us the number 1 innovation partner.

Treatment centers

The business card of modern practices. We are striving to create the ideal ergonomic and innovative center. Individually tailored to the well-being and demands of the patient and dentist.

Instruments

Advantages that speak for themselves. We make sure that we provide the right balance of proven quality, individual ergonomics and innovative technology for user-friendly work.

Hygiene systems

Competence that gives you safety. When it comes to hygiene in the practice, we do not take any shortcuts.
